

E SEMI-SUBMERSIBLE PUMP

POISED TO DIVE

SEEPEX semi-submersible pumps drain full containers, basins and barrels. They convey abrasive or corrosive conveying products with low to high viscosity. Individually sized and designed for the application, they are easy to maintain and have low operating costs. Overall, our semi-submersible pumps are a cost-effective alternative to other pump systems.

KEY FACTS

CONVEYING CAPACITY

30 ^{L/H} - 300 ^{M³/H}
0.132 - 1,320 ^{USGPM}

PRESSURE

up to 12 ^{BAR}
180 ^{PSI}

PROPERTIES & BENEFITS

- Low pulsation, uniform flow
- Variable submersible depths
- Increases the available NPSH value (Net Positive Suction Head)

PHOTOGRAPHY

RANGES

RANGE

BE RANGE

- For draining basins, swamps, tanks, pits and containers of every kind
- Conveying capacity: 30 l/h – 300 m³/h (0.132 USGPM – 1,320 USGPM)
- Pressure: up to 12 bar (180 PSI) and higher (on request)
- 4 semi-submersible variants: crane suspension, wall mounting, and mounting plate with pressure branch on top and bottom
